About Me

I am a data scientist specializing in machine learning, statistical modeling, and natural language processing. With a background in computer science and applied mathematics, I enjoy transforming raw data into actionable insights. My expertise lies in developing predictive analytics models, implementing scalable algorithms, and deploying data pipelines. I excel at communicating complex findings to non-technical audiences, ensuring data-driven decisions are accessible to all stakeholders.

Work Experience

- **Data Scientist**

TechVerse Solutions, 2020 – Present

- Developed and deployed recommendation systems that increased customer retention by 20%.
- Built scalable data pipelines for real-time analytics, reducing ETL processing time by 40%.
- Led a team of 4 in developing machine learning models to optimize marketing strategies.

- **Data Analyst Intern**

Insight Analytics, 2018 – 2020

- Automated data cleaning processes, saving 15+ hours weekly.
- Conducted statistical analysis to identify customer behavior trends for quarterly reports.

Skills

- Machine Learning
- Natural Language Processing
- Data Preprocessing
- Python, R, SQL
- TensorFlow, PyTorch, Scikit-learn
- Data Visualization (Tableau, Power BI)

Languages

- English
- Spanish
